Contract Completion

25X1A

1. Contract No. [REDACTED] with the subject Contractor covered the procurement of studies, tests and analysis of various types of high moduli glass fibers and their possible application to structural purposes in areas of interest to the Project.

2. Originally, the Contract was written on a Task Basis and the Contractor was authorized by the Contracting Officer to study certain areas. Such authorization was in the form of a contract approval setting forth the statement of work and the dollar amount authorized.

Contractor has submitted periodic reports under the contract indicating the areas of study and tests he has made. Copies of all these reports have been submitted to the Special Assistant for Technical Analysis. In view of the above, and if the Special Assistant concurs, that the Contractor has satisfactorily completed the terms of the contract from a technical standpoint, request his concurrence be indicated as provided below. In addition, if you concur in the Contractor's statement that no inventions were conceived under this contract, request you indicate your approval on the attached Patents Statement.
